

# WELCOME TO BUFFINGTON HOMES

Let us be your guide! We understand buying a home is both exciting and stressful, especially in this crazy market we find ourselves in. Rest assured, we want to make this process as stress-free and as exciting as possible for you! Have questions, explore the resources below, and don't hesitate to reach out, we're here for you!

## KNOW THE PERKS

### Constant Inventory

We're currently building in Magnolia Park and Allen's Mill, with several new communities on the way, providing constant inventory across Northwest Arkansas.

### Unique Design Experience

We offer an in-house design studio with professional designers who make it fun and easy for you to personalize the home of your dreams.

### Experts in Building

Our team can serve as your new-home construction experts, answering any questions you or your clients may have about the build process and timing.

## KNOW WHAT'S NEW

### Leadership Changes

We recently hired several new leaders, including a new president and director of construction. They each bring a wealth of experience to our company, and we're already making significant and positive changes.

### Improved Processes

We're now waiting until a home is 100% complete before closing, which means everything on the punch list has been finished before homeowners move in, and when we get closer to completion, we'll have one final closing date. These improved processes have drastically improved our homeowners' experiences.

### Better Communication

We've had a major shift in our internal communications, which means everyone is better informed and can give more accurate information to you and your clients throughout the build.

Ultimately, we want Buffington Homes to be known as the best builder in Northwest Arkansas for quality homes and unparalleled customer experiences - including yours. We invite you to contact our New Home Specialists to set up your next appointment!
